

GlassBench visible-member ensemble audit

Prefix-visible NPZ headers are gated before they are used as an uncertainty ensemble.

target	ensemble stage	member evidence
KA2D T=0.23	visible member ensemble ready for uncertai	ready=1; prefix=9/4; full list=1; split=test first member id: N1290T0.23_202_tc05 next: compute member resolved observables and uncertainties
KA2D T=0.30	visible member ensemble ready for uncertai	ready=1; prefix=10/4; full list=1; split=train first member id: N1290T0.30_3_tc01 next: compute member resolved observables and uncertainties
