

# SOTA remote result-curve target fetch

Targeted GlassBench chi4 bytes are fetched, but header-only payloads cannot support numeric comparison.

| target               | stage                                                                                                       | fetch | crc | header | numeric | compare | blocker      |
|----------------------|-------------------------------------------------------------------------------------------------------------|-------|-----|--------|---------|---------|--------------|
| KA T=0.44 chi4_proxy | <div>target fetch header only parse blocked</div> <div>GlassBench/KA_results/chi4_KA_T0.44_update.dat</div> | 1     | 1   | 1      | 0       | 0       | numeric rows |
