

Benchmark publication claim ladder

Readiness, reanalysis, and held-out prediction gates are collapsed into manuscript-safe claim levels.

ladder row	publication stage	allowed claim	real	overreach	next action
glassbench current publication	metadata verified not reanal source: glassbench zenodo 10118191	metadata readiness only	0	1	cache full archive and v
synthetic trajectory canary	synthetic prediction canary source: synthetic intermittent trajectory	protocol canary passed	0	0	repeat protocol on real
fit only negative control publi	fit only overclaim blocked source: synthetic intermittent trajectory	do not claim prediction	0	1	add heldout predictions
thermodynamic scope publication	thermodynamic scope boundary source: kauzmann adam gibbs entropy boundary	scope boundary only	0	0	do not convert closure t
