

SOTA source provenance gate

A citation is not promoted to an inversion input unless repository, raw-data, metadata, and reuse conditions are explicit.

source	stage	traj	raw	digitize	blocker
glassbench zenodo trajectory release provenance: doi;repository url;machine readable files;raw particle trajectories;simulation protocol metada	trajectory reanalysis source	1	0	0	none
hedges persistence exchange jcp arti provenance: doi;published figures	citation only source	0	0	1	machine readable files
