

GlassBench tc50 late-recovery outcome matrix

Possible tc50 observations are pre-registered as support, rejection, or indeterminate outcomes before late data are available.

target/scenario	claim if observed	two-sigma verdict inputs
KA2D T=0.23 s=151 tc50 low late ngp gaussian recovery	finite exchange supported static disorder re	decision=1; NGP=0.0125+/-0.0015; recovery=1; finite margin=0.0345; static margin=0.0845 verdict=uncertainty weighted finite exchange supported static disorder rejected
KA2D T=0.23 s=151 tc50 high late ngp or missing recovery	finite exchange rejected or model reparamete	decision=1; NGP=0.09+/-0.003; recovery=0; finite margin=-0.046; static margin=0.004 verdict=uncertainty weighted finite exchange rejected
KA2D T=0.23 s=151 tc50 wide uncertainty requires more data	no mechanism selection claim	decision=0; NGP=0.045+/-0.01; recovery=1; finite margin=-0.015; static margin=0.035 verdict=late recovery uncertainty indeterminate
KA2D T=0.30 s=3 none low late ngp gaussian recovery	no late recovery claim	decision=0; NGP=0.0125+/-0.0015; recovery=1; finite margin=0.0345; static margin=0.0845 verdict=late recovery verdict protocol incomplete
KA2D T=0.30 s=3 none high late ngp or missing recovery	no late recovery claim	decision=0; NGP=0.09+/-0.003; recovery=0; finite margin=-0.046; static margin=0.004 verdict=late recovery verdict protocol incomplete
KA2D T=0.30 s=3 none wide uncertainty requires more data	no late recovery claim	decision=0; NGP=0.045+/-0.01; recovery=1; finite margin=-0.015; static margin=0.035 verdict=late recovery verdict protocol incomplete

KA2D T=0.30 s=none none high late ngp or missing recovery	no late recovery claim	decision=0; NGP=0.09+/-0.003; recovery=0; finite margin=-0.046; static margin=0.004 verdict=late recovery verdict protocol incomplete
KA2D T=0.30 s=none none wide uncertainty requires more data	no late recovery claim	decision=0; NGP=0.045+/-0.01; recovery=1; finite margin=-0.015; static margin=0.035 verdict=late recovery verdict protocol incomplete

The matrix prevents after-the-fact mechanism selection; thermodynamic glass-transition claims remain out of scope.
