

Literature inversion readiness

Coverage checks separate qualitative benchmark support from quantitative, uncertainty-weighted inversion readiness.

benchmark	coverage	qual	quant	unc	next action	
kob_andersen_van_hove_1995		1.00	1	0	0	digitize van-Hove/NGP curves or rerun a KA trajectory simulation
kob_andersen_intermediate_scattering_1995		1.00	1	0	0	digitize multi-k F_s curves and attach temperature-dependent uncertain
hedges_persistence_exchange_2007		0.60	1	0	0	combine trajectory-clock extraction with diffusion and late-NGP measur
weeks_weitz_cage_2002		0.75	1	0	0	recover trajectory-level cage metrics in the renewal-cage observable s
lacevic_four_point_2003		0.75	1	0	0	combine four-point data with transport to test the facilitation-front
guan_granick_fickian_ngp_2014		1.00	1	0	0	digitize colloid MSD/NGP/van-Hove curves for Brownian-non-Gaussian com
