

Trajectory adapter contract

Local trajectory adapters must expose coordinate, time-grid, identity, box, state-point, species, and units fields before trajectory diagnostics are claimed.

contract	stage	system	fields	ready	blocker
glassbench ka remote contract missing: coordinate_file;time_grid;particle_identity;box_geometry;temperature_or_state_point;species_la	remote adapter contract onl	KA	2/9	0	coordinate file
glassbench ka2d remote contract missing: coordinate_file;time_grid;particle_identity;box_geometry;temperature_or_state_point;species_la	remote adapter contract onl	KA2D	2/9	0	coordinate file
synthetic local trajectory adapter missing: none	local trajectory adapter re	synthetic	9/9	1	none
