

GlassBench visible-member ensemble audit

Prefix-visible NPZ headers are gated before they are used as an uncertainty ensemble.

target	ensemble stage	member evidence
KA2D T=0.23	visible prefix not publishable ensemble	ready=0; prefix=3/4; full list=0; split=test first member id: N1290T0.23_202_tc05 next: index full npz member list;extract at least 4 independent members per temperature;kee
KA2D T=0.30	visible prefix not publishable ensemble	ready=0; prefix=3/4; full list=0; split=train first member id: N1290T0.30_3_tc01 next: index full npz member list;extract at least 4 independent members per temperature;kee
